**RENEWED REQUEST FOR RECONSIDERATION OF PATENT TERM
ADJUSTMENT PURSUANT TO 37 C.F.R. § 1.705(b)**

Mail Stop Patent Ext
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Dear Sir:

U.S. Patent No. 7,060,311 was issued on June 13, 2006. The Issue Notification indicates a patent term adjustment calculated by the U.S. Patent office pursuant to 37 C.F.R. 1.701 to be **382** days. A copy of Issue Notification for U.S. Patent No. 7,060,311 is included herewith as Exhibit A.

Applicants believe that the patent term adjustment should be **501** days. For the reasons stated herein, reconsideration of the patent term adjustment is respectfully requested pursuant to 37 C.F.R. 1.705(b). This petition fee pursuant to 37 C.F.R. § 1.18(e) was charged to Deposit Account No. 23-1925. This is evidenced by the July 5,

2005 USPTO Decision on the Request For Reconsideration filed April 1, 2005, which is included herewith as Exhibit B.

The patent term adjustment for the present application was calculated by the U.S. Patent and Trademark Office. Applicants believe that errors may have resulted in an incorrect patent term adjustment for the present application as described in detail below. The present application is not subject to a terminal disclaimer.

Period of Adjustment Pursuant to 37 C.F.R. § 1.703

The present application was filed on **June 30, 2000**, as evidenced by the filing receipt attached as Exhibit C. The 14 month date specified in 37 C.F.R. § 1.703(a) is **August 30, 2001**. The first action on the merits by the U.S. Patent and Trademark office in the present application was a **first office action** mailed on **October 3, 2001**. Thus, applicants believe that the difference between the 14 month date and the date of mailing of the first action on merits should be **34** days.

Period of Adjustment Pursuant to 37 C.F.R. § 1.703(a)(2)

The period of adjustment pursuant to 37 C.F.R. § 1.703(a)(2) is the number of days in the period beginning on the day ("the 4 month date") after that date that is four months after the date on which a reply was filed pursuant to 35 U.S.C. § 111 and ending on the date of mailing of either an action pursuant to 35 U.S.C. § 132, or a notice of allowance pursuant to 35 U.S.C. § 151, whichever comes first.

Based on the applicants' calculations shown in Exhibit D, the applicants assert that the total delay attributed to the United States Patent Office under 37 C.F.R. § 1.703(a)(2) is **111** days.

Period of Adjustment Pursuant to 37 C.F.R. § 1.703(a)(6)

The period of adjustment pursuant to 37 C.F.R. § 1.703(a)(2) is the number of days in the period beginning on the day after the date that is four months after the date the issue fee was paid and all outstanding requirements were satisfied and ending on the date a patent was issued.

The date the issue fee was paid and all outstanding requirements were satisfied in the present application is **April 1, 2005**. The date that is four months after the date the issue fee was paid and all outstanding requirements were satisfied is **August 1, 2005**. The

patent was issued **June 13, 2006**. Thus, applicants believe that the difference between the date the issue fee was paid and all outstanding requirements were satisfied and the date the patent was issued is **316** days.

Period of adjustment pursuant to 37 C.F.R. § 1.703(b)

The period of adjustment pursuant to 37 C.F.R. § 1.703(b) is the number of days in the period beginning on the day ("the 3 year date") after the date that is three years after the date on which the application was filed pursuant to 35 U.S.C. § 111(a) or fulfilled the requirements pursuant to 35 U.S.C. § 371.

The present application was filed on **June 30, 2000**, as evidenced by the filing receipt attached as Exhibit C. The 3 year date specified in 37 C.F.R. § 1.703(b) is **June 30, 2003**. On the date of receipt of the Applicants' RCE application, **November 10, 2004**, the present application is believed to have already exceeded the combined total of the 3 year date by **499** days and the total amount of delay attributed to the United States Patent Office under 37 C.F.R. § 1.703(b) is **431** days (499 – 68 day concurrent delay). Applicants expect that additional non-overlapping delay can reasonably be expected prior to a patent issuing for the present application. Applicants therefore request re-computation of the period of adjustment pursuant to 37 C.F.R. § 1.703 upon identification of the date of issue of the patent of the present application to reflect this delay. With this request, applicants further reserve the right to request reconsideration of the patent term adjustment pursuant to 37 C.F.R. § 1.705(d) if the term of the issued patent is believed to be extended or adjusted incorrectly.

Reduction in Period of Adjustment pursuant to 37 C.F.R. § 1.704

Period of Adjustment Pursuant to 37 C.F.R. § 1.704(b)

Pursuant to 37 C.F.R. § 1.704(b), the period of adjustment shall be reduced by the number of days, if any, beginning on the day after the date (the 3 month date) that is three months after the date of mailing or transmission of an Office communication notifying the applicant of a rejection, objection, etc., and ending on the date a corresponding reply was filed.

The total applicants' delay is shown on Exhibit D and is believed to be **391** days.

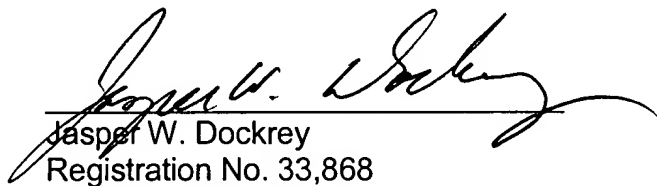

Total patent term adjustment

For the present application, the total patent term adjustment pursuant to 37 C.F.R. § 1.703(f) is the period of adjustment pursuant to 37 C.F.R. § 1.703 reduced by any delays pursuant to 37 C.F.R. § 1.704. Thus, according to our calculations, we believe that the patent term adjustment should be $(431 + 34 + 111 + 316)$ days - (391) days = **501** days, instead of **382** days indicated on the Notice of Allowance attached as Exhibit A.

It is respectfully asserted that the patent term adjustment determined by the U.S. Patent and Trademark Office for the present application may not be correct. Accordingly, Applicants respectfully request the U.S. Patent and Trademark office to reconsider, and make any necessary revisions to the PAIR system Patent Term Adjustment History in view of the previous remarks. In addition, it is respectfully requested that the patent term adjustment be re-calculated by the U.S. Patent and Trademark Office in view of the above remarks. Office personnel are invited to contact the undersigned via telephone if such communication would be beneficial in fulfilling this request. A duplicate copy of this Petition is attached.

Respectfully submitted,

: DECISION ON APPLICATION
: FOR PATENT TERM ADJUSTMENT

This is a decision on the "REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT PURSUANT TO 37 C.F.R. §1.705(b)," filed April 1, 2005. Applicant requests that the initial determination of patent term adjustment under 35 U.S.C. 154(b) be corrected from zero (0) days to three hundred nine (309) days.

For the reasons set forth below, a decision on the request for reconsideration of the patent term adjustment indicated on the patent is being **HELD IN ABEYANCE** until after the actual patent date.

Applicants are given two months from the issue date of the patent to request reconsideration of the patent term adjustment indicated on the patent application. Applicants may seek such reconsideration without payment of the fee. A copy of this decision should accompany applicant's written request for reconsideration.

On December 28, 2004, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment (PTA) to date is zero (0) days. On April 1, 2005, applicants timely¹ submitted an application for patent term adjustment, asserting that the correct number of days of PTA is three hundred nine (309) days.

Applicants specifically state that the patent issuing from the application is not subject to a terminal disclaimer.

The Office initially determined a patent term adjustment of zero (0) days based on an adjustment for PTO delay of thirty-four (34) days pursuant to 35 U.S.C. 154(b) (1) (A) (i) and 37 C.F.R. § 1.703(a) (1), and forty-three (43) and sixty-seven (67) days, both pursuant to 35 U.S.C. (b) (2) (C) (ii) and 37 C.F.R. § 1.704(b), reduced by applicants' delays of five (5), one hundred fifty-five (155), and ninety-four (94) days pursuant to 35 U.S.C. 154(b) (2) (C) (ii) and 37 C.F.R. § 1.704(b), and thirteen (13) days pursuant to 35 U.S.C. 154(b) (2) (C) (i) and 37 C.F.R. § 1.704(c) (8). All periods of adjustment have been reviewed and found to be correct.

It is noted that with respect to the sixty-seven (67) days of adjustment, applicants assert that the adjustment should be sixty-eight (68) days. Office records indicate that a final rejection was filed on March 11, 2004, in response to an amendment filed on September 4, 2003. However, applicants state that the amendment was filed by express mail on September 3, 2003. A review of the amendment does not reveal that it was filed express mail, nor have applicants offered any proof to indicate that it was.

In addition, applicants assert additional PTO delay of four hundred thirty-one (431) days for the failure on the part of the Office to issue the patent within three years of its filing. The Office will be able to assess whether or not any additional PTA is accorded once the issue date is established.²

Receipt of the \$200.00 fee set forth in 37 C.F.R. § 1.18(e) is acknowledged.

¹ Applicants filed the application for patent term adjustment together with the payment of the issue fee, and included a Certificate of Mailing dated March 28, 2005.

² Applicants should note that if an application is entitled to an adjustment under 35 U.S.C. 154(b) (1) (B), the entire period of pendency before the Office except for periods excluded under 35 U.S.C. (b) (1) (B) (i) - (iii), and not just the period beginning three years after the actual filing date of the application, is the period of delay under 35 U.S.C. 154(b) (1) (B) in determining whether periods of delay overlap under 35 U.S.C. 154(b) (2) (A).

The application file is being forwarded to the Office of Patent Publication for processing into a patent.

Telephone inquiries specific to this matter should be directed to Cliff Congo, Petitions Attorney, at (571)272-3207.

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
